

Adding Logo to Asset

You can now add a **separate logo to an Asset**, so if you have different logos for all your Assets you are now able to have these appear on **emails and Audits regarding the Asset**.

In order to set this up follow the steps below:

1. Navigate to **Manage > Assets**.
3. Select the **Asset** you wish to **add the logo** to.
4. You will now see a section just like this, simply select Settings tab
5. Then the **Add Logo box**
6. Select the **image** from your **desktop**.

This **Logo** will now appear on **all reports and emails** which are **under this Asset**.

PLEASE NOTE:

This will **not change the Logo** on the **top right** of the desktop as that is the **organisation logo**, in order to change that click [here](#)
