# Overview

The iPad having a smaller screen can make things more confusing and having to scroll to get to a certain requirement you want may not be all that easy.

Audit Comply Example Assessment

REQUIREMENT 3 OF 6

Notes:

This is an example to illustrate some features of the AuditComply platform

Is there evidence that the assessment process is being followed?

1. Assessment Process

Add Answer

1.1 Yes	1.2 Yes 📷 3

Suggest an improvement for a requirement that is not based on compliance.

2. Risk Analysis

1 Image

2.1 Major 📷 1	2.2

Critical | Major | Minor | Compliant | NA

3. Test the System

NON-CONFORMANCE

3.1	3.2

Delete View

Add an additional non-conformance.

Add another non-conformance

NEW ASSESSMENT MY SCHEDULE NON-CONFORMANCES MENU

The **overview** will display **all requirements**, how many **images** that requirement has

and if a **Non-Conformance** is raised on the requirement.

It will also give the **Asset** if you are on a **Non-Supplier** Org or **Asset** and **Contact** if you are on a **Supplier** Org. Along with all the **scheduled date**, **Due date**, **document reference** and **Completion Percentage**.

It will be **color coded** as well so if a **score** has a **color** associated with it then it will be the background of the requirement square.

Once you select a **Requirement** square you are taken to that requirement.
