

# Rate Limits

Requests to the API endpoint will be limited to a maximum number per minute, per organisation. These limits are detailed below:

- 20 requests/minute

Any requests after this will return a HTTP status code of 429, such as the following example:

```
"GET / HTTP/1.0" 429
```

If a higher rate limit is required, please contact [support@auditcomply.com](mailto:support@auditcomply.com)
